

**Is there a way I can help with costs?**

Yes. Please [visit our donation page](#) to make a donation, today. For years we had worked totally volunteer, living out of the family checkbook. For the 2010 election year, needed repairs for the aging website created a need to ask for more significant donations so a "doing business as" account was established. Then for the 2012 election year, it was decided to contract with the web design company owned by the original designer of the 1998 website. 5Q Communications has put together some fascinating technology that will greatly increase the simplicity of both acquiring and presenting the information from the candidates. Once donations were coming in in generous amounts, lawyer friends encouraged the official establishment of a non-profit corporation which happened November 1, 2011. 501(c)(3) tax-exempt designation was approved in November 2013 retroactive to 2011.
